

## PAIR OF POCKETS

Embroider fabric to taste, keeping at least 1 cm inside the outline.

Cut 2 of fabric.

If embroidering, cut 2 of lining, lay on the back of the embroidered panels and treat as one.  
(Or cheat, and use sturdy prints.)

Cut the opening as marked from the front panel.

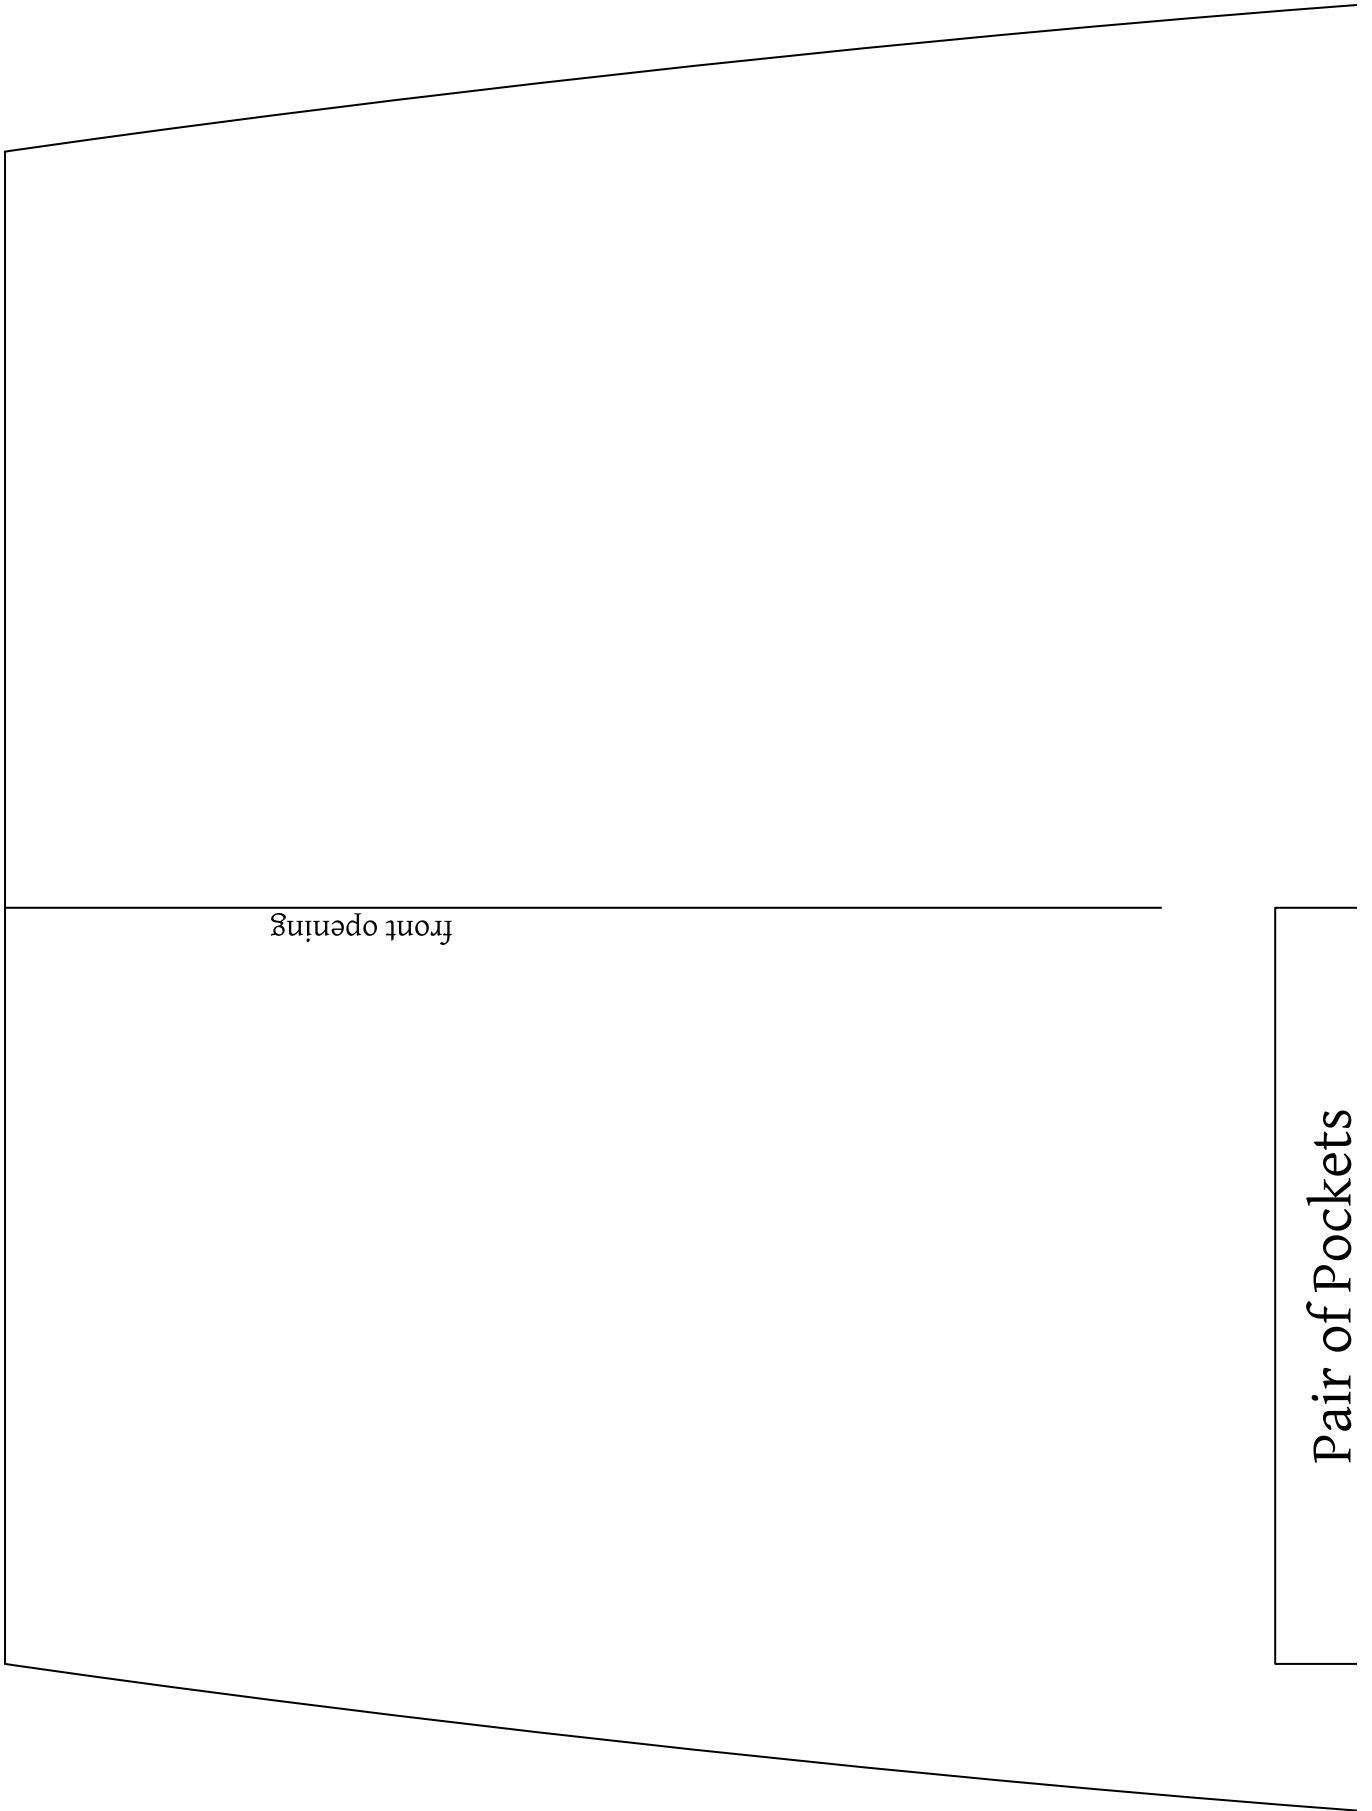

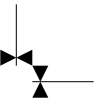

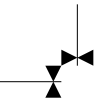

Lay the two panels with wrong sides together, sew all around 5 mm from the edge.

Cover the raw edges of the sides, bottom and opening with tape or ribbon.

Repeat for the second pocket.

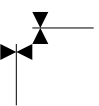

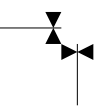

Cover the top edges of both pockets with a tape long enough to go around your waist and be tied.

This square should be 10 cm on all sides to make B4 sized pockets.
